

Certify your Backyard and buy a sign.

This is the procedure:

1. Member completes application (see website links to applications) and mails to DNR at address provided.
2. The Application will be approved or will state what needs to be added for approval.
3. If approved, a letter is mailed to the member along with a ½ sheet with further directions.

Directions: "Since your yard has earned certification in the Community Wildlife Project, you are eligible to purchase an attractive 9" X 12", .063 gauge aluminum Community Wildlife Project sign to hang in your yard. Signs can be purchased for \$8.00 plus your current counties' sales tax. If the sign is mailed, the postage for the flat rate envelope will be an additional fee. Please contact Jean O'Shields with The Garden Club of Georgia, Inc. at oshieldsj@bellsouth.net or Terry Waith with The Garden Club of Georgia, Inc. at twait@bellsouth.net to make your purchase. PLEASE DO NOT SEND CHECKS OR ORDERS TO GEORGIA DNR. A copy of the attached letter may be required as proof of certification."

4. The member who receives the letter will send an email to either Jean or Terry. They will give you further instructions and calculate the sales tax. When they receive copy of your certification letter and payment they will mail the sign.

Smaller decals may be added to the sign to show Hummingbird Haven and Nesting Box Certification. A new Native Plant decal is currently being designed.

Each decal is \$1.00. That includes tax and mailing.
